### PTZ Camera Teleprompter

datavideo

Welcome to the DV Prompter app for smartphones and tablets. The app is called DV Prompter... Here are a few

**TP-900**

Each Datavideo Prompter works as a stand-alone or could be synced with multiple Prompters through a network or HDMI. Each Prompter comes with a built-in 15" monitor with pre-installed DV PrompterPlus app.

# Conference Teleprompter
# TP-800

TP-800 is designed for presentations and conferences, where you want the speaker to have the availablility to make eye contact with your audience from a podium. Everything fits into a hard carry case and can be powered with a V-Mount battery for complete portability.

GLASS

High quality 17" reflective glass viewable in many different lighting conditions.

# PTZ Camera Prompter TP-900

Having a robotic camera as your teleprompter camera allows the presenter to keep eye contact with the viewer when moving around in a studio or on a stage venue. Adding an optional PTC-285 auto tracking camera gives the presenter a way to do a recorded presentation without any other operator.

Scissor Adjustment Vertical & Horizontal Right Camera Angle

# Network All Prompters

## Benefits of Networking Prompters

- **Keep multiple prompters in sync**
- **Upload scripts, PowerPoints™ in real time**
- **Control the script over the network**

Thank you for joining me today. I have some great news to share with you......

Thank you for joining me today. I have some great news to share with you......

**Synchronize multiple units via HDMI or Network**

## Control Options

Most bluetooth 3rd party presentation remotes will work with the teleprompters listed in this brochure. These remotes start, stop & control speed of the text wirelessly.

The **FS-30** is an optional footswitch to control to allow the presenter to stop, start and control speed of the scrolling text or select the next slide in a presentation.
**MSRP $99**
